

Dear Parents,

To successfully complete the registration process, please review this important information regarding State requirements.

All new students, pre-nursery, kindergarten and 6th grade students are required by the State of Illinois to have a check up and complete a health form. Forms are available online, at the doctor's office or in the school office. These forms are intended to be returned to the school office before school starts; however if appointments need to still be arranged, we will gladly accept the form within the first month of school.

Please be sure that your child has received the required immunizations – **DPT, Polio, Hib, MMR, Hep B, and Varicella** (chicken pox).

If your child has had the chicken pox please ask the doctor to note that information on the form (there is a special line on side one for this).

The TOP OF SIDE 2, the child's history, is for the PARENT to fill out and SIGN.

All new students, Kindergarteners, and sixth graders are also REQUIRED to have a **Diabetes screening** (a couple of questions **not** a blood test).

All children between 1-6 years of age are required to have a **lead test**. Please ask your pediatrician to sign the required form.

As of 2008 all new students and kindergarteners are required to have a **vision exam** (not a screening) by a licensed professional.

Please do not hesitate to call the school with any questions you might have. All medical information will be kept confidential.

Thank you for your attention to these important forms. Your child's health and safety are important to us!

Rabbi Shimon Zehnwirth
Principal,
Torah Academy
